

# CORONAVIRUS (COVID-19) MANAGEMENT POLICY

(Effective from 19 November 2021)

## Introduction

COVID-19 is a new strain of coronavirus that was originally identified in Wuhan, Hubei Province, China in December 2019. The World Health Organization (WHO) has declared that COVID-19 outbreak as a 'pandemic' - a Public Health Emergency of International Concern (effective 11 March 2020). This is mainly due to the speed and scale of transmission of the virus in countries around the world, including Australia.

COVID-19 is transmitted from someone who is infected with the virus to others in close contact through contaminated droplets spread by coughing or sneezing or by contact with contaminated hands or surfaces. According to Department of Health, the time of exposure to the virus and when symptoms first occur is anywhere from 2-14 days.

Symptoms can range from a mild illness, similar to a cold or flu, to pneumonia. People with COVID-19 may experience:

- o fever
- o flu-like symptoms such as coughing, sore throat and fatigue
- o shortness of breath

The [Australian Government](#) is constantly updating the current status of COVID-19 including health recommendations, travel restrictions, and a vast collection of resources and information to help people make informed decisions.

As this information is changing rapidly, our Service is monitoring health alerts and implementing measures suggested by key health experts to minimise the transmission of COVID-19.

Our Service has a range of comprehensive policies in place to guide best practice in relation to health and safety, dealing with infectious diseases and maintaining a child safe environment. Our duty of care and responsibilities to children, parents, families and all staff to provide a safe environment is of utmost importance.

The evolving nature of COVID-19 and the unprecedented steps required to protect our community as recommended by the Australian Government, has resulted in the development of a specific policy to assist our Service manage this pandemic.

This policy will change as required to ensure the protective measures against COVID-19, as advised by our state or territory government, are implemented by our Service.

### NATIONAL QUALITY STANDARD (NQS)

| QUALITY AREA 2: CHILDREN'S HEALTH AND SAFETY |                                 |  |
|--|---------------------------------|--|
| 2.1.1  | Wellbeing and comfort           | Each child's wellbeing and comfort is provided for, including appropriate opportunities to meet each child's needs for sleep, rest and relaxation. |
| 2.1.2  | Health practices and procedures | Effective illness and injury management and hygiene practices are promoted and implemented.  |
| 2.2  | Safety                          | Each child is protected.   |

| EDUCATION AND CARE SERVICES NATIONAL REGULATIONS |  |
|--|--|
| 77   | Health, hygiene and safe food practices  |
| 85   | Incident, injury, trauma and illness policies and procedures   |
| 86   | Notification to parents of incident, injury, trauma and illness  |
| 87   | Incident, injury, trauma and illness record  |
| 88   | Infectious diseases  |
| 90   | Medical conditions policy  |
| 93   | Administration of medication   |
| 110  | Ventilation and natural light  |
| 162  | Health information to be kept in enrolment record  |
| 168  | Education and care service must have policies and procedures   |
| 173 (2)(g)                                       | Prescribed information to be displayed- centre based service and family day care service, a notice stating that there has been an occurrence of an infectious disease at the premises or venue |

## PURPOSE

Our Service will minimise our staff and children's exposure to COVID-19 by adhering to all recommended guidelines from the Australian Government- Department of Health and local Public Health Units to slow the spread of the virus. We will implement practices that help to reduce the transmission of the virus including the exclusion of any person (child, educator, staff, parent, visitor or volunteer) that is suspected or has tested positive to having COVID-19. Our Service will implement effective hygiene practices as per our existing policies and procedures and increase the frequency of cleaning and disinfecting high touch areas as per SafeWork Australia recommendations.

Our Service will provide up-to-date information and advice to parents, families and educators sourced from the Australian Government, Department of Health and state Ministry of Health about COVID-19 as it becomes available. Recommendations and health measures mandated by the Federal Government Department of Health will be strictly adhered to at all times.

As recommended, our Service has a COVID-19 Safety Plan in place and a copy is available on our premises at all times. We are a COVID Safe business and are registered with our [NSW government](#).

## SCOPE

This policy applies to children, families, staff, management, and visitors of the Service.

## IMPLEMENTATION

Our Service is committed to minimise the spread of the COVID-19 virus by implementing recommendations provided by the [Australian Government- Department of Health](#) and Safe Work Australia.

Our Service implements procedures as stated in the Staying healthy: *Preventing infectious diseases in early childhood education and care services* (Fifth Edition) developed by the Australian Government National Health and Medical Research Council as part of our day-to-day operation of the Service.

We are guided by explicit decisions regarding exclusion periods and notification of any infectious disease by the *Australian Government- Department of Health* and local Public Health Units in our jurisdiction under the Public Health Act. COVID-19 is a notifiable condition in all states and territories of Australia.

The Public Health Unit may contact the Approved Provider in the event of any child, educator, staff member or visitor who has attended our Service, and has tested positive to COVID-19.

| <a href="#">Public Health Unit- Local state and territory health departments</a> |

This policy must be read in conjunction with our other Service policies:

- Sick Children Policy
- Incident, Injury, Trauma and Illness Policy
- Medical Conditions Policy
- Handwashing Policy
- Health and Safety Policy
- Interactions with Children, Families and staff Policy
- Payment of Fees Policy

## Minimising the transmission of COVID-19

### Risk Management

Parents, families, staff and visitors (including contractors) must check in to early education and care facilities, including OSHC and Family Day Care services using the Service NSW QR code. Services are required to display the Service NSW QR code and take reasonable steps to ensure adults check-in, no matter how minor the interaction with the service may be. If families do not have access to a Smart device, a manual collection of personal contact details must be collected and entered into an electronic format (such as a word document and kept for at least 4 weeks).

Our Service has effective and systematic risk management processes in place to identify any possible risks and hazards to our learning environment and practices related to COVID-19. Where possible, we have eliminated or minimised these risks as is reasonably practicable. Control measures are reviewed in consultation with staff members. Due to the constant changes in managing our Service during the pandemic, our approach to risk management is ongoing and fluid.

A statement from [Australian Health Protection Principal Committee](#) [15 November, 2021], details evidence that indicates that the Delta variant is more infectious and easily spread than other variants. The AHPPC acknowledges the many control measures implemented in schools and early childcare settings to help reduce transmission of COVID-19. The best method to protect all children from the disease is to ensure vaccination of those around them who are able to be vaccinated. The AHPPC recommends that anyone, with new respiratory symptoms, including children, parents and staff, should *stay at home* and arrange to be tested for COVID-10 as soon as possible. Actions in early childhood settings to help prevent transmission of the virus include well establish COVIDSafe practices of hand and respiratory hygiene, good ventilation, regular environmental cleaning and mask wearing by all adults.

Actions in early childhood settings to help prevent transmission of the virus include well establish COVIDSafe practices including:

- adhering to mandated COVID-19 vaccinations dates for ECEC staff
- exclusion of unwell staff, children and visitors
- mask wearing by all adults
- reducing mixing of children by separating cohorts
- ensuring staff maintain physical distancing from each other, especially in tea rooms
- enhanced personal hand and respiratory hygiene for children, staff and parents
- improving ventilation in indoor spaces and adhering to any 'ventilation plans' implemented in schools or buildings
- where possible, moving lessons and activities to outdoors to reduce transmission between groups and limit the number of person who may need to be quarantined if a case emerges
- full adherence to the NHMRC childcare cleaning guidelines and cleaning and disinfecting high touch surfaces at least twice daily, washing and laundering play items and toys
- providing staff and families with information and posters about [COVID-19 vaccination roll out](#)
- recommending influenza vaccination for children, staff and parents

Parents of children with a current Asthma Action Plan are advised to update this if needed in consultation with their child's health care professional. Updated plans should be provided to management for

distribution to relevant staff members. (Asthma Australia).

### Hygiene practices

Our Service will ensure [signs and posters](#) remind employees and visitors of the risks of COVID-19 and the measures that are necessary to stop its spread including hand washing and hand rub procedures and information about COVID-19. <https://www.dese.gov.au/covid-19/childcare>

These will also be communicated to families through email, newsletters and social media. Alcohol-based hand sanitiser will be kept out of reach of young children and only available for adults to use. If parents decide to apply this to their child, they must supervise the child to avoid rubbing it into their eyes or a child swallowing the gel/liquid. Our Service will supply disposable tissues and have bins available with plastic liners available in several locations for disposing used items.

Information provided to families may include:

- symptoms of COVID-19
- transmission of the virus
- messaging to reinforce- *'stay at home when unwell'*
- self-isolation and exclusion
- prevention strategies- including hand hygiene and self-isolation
- contact details for health assistance
- CCS and ACCS information
- Public Health Orders (if required)
- Wearing of face masks in outdoor and indoor settings [applicable in some jurisdictions]
- service closure- Primary Close Contacts and quarantine requirements

### The Approved Provider, Nominated Supervisor, educators, staff, families and visitors will comply with the following:

#### Exclusion/ Self-isolation/ Self-quarantine

Our Service has an obligation to ensure the health and safety of employees, children and visitors in our workplace, so far as reasonably practicable. We may therefore collect information from visitors about their potential exposure to COVID-19 in order to identify, assess and control risks of infection in line with Department of Health guidelines. To comply with privacy laws, personal information will only be disclosed on a 'need to know' basis to the Public Health Unit to prevent and manage COVID-19 if required. (ACTU Privacy at work)

[Risk mitigation strategies may change due to the fluid nature of the Coronavirus pandemic. Services must regularly check advise from their Public Health Unit and Regulatory Authority for up-to-date information and make adjustments to this policy as required. The following are some strategies that have been implemented during the pandemic.

- any person who has been in close contact with someone who has a positive diagnosis must self-isolate for **14 days** and follow the instructions of your state/territory Health department and authorised contact tracers. (see: [Quarantine for coronavirus \(COVID-19\)](#))
- household members of a person who has a confirmed case (including children) of COVID-19 must also be isolated from the childcare service and public and follow instructions by Public Health
- the Public Health Unit will provide further information on a case-by-case basis as to the length and place of isolation (see: [COVID-19 self-isolation](#))
- in the event of a staff member, parent, child or visitor being diagnosed with COVID-19 the Public Health Unit will conduct contact tracing and provide further advice to our Service as required
- any person (employee, enrolled child, parent, caregiver, visitor or contractor) who is displaying symptoms such as: **fever, coughing, sore throat, fatigue and shortness of breath**, should be tested either by visiting a free COVID-19 respiratory clinic to arrange a test for COVID- 19 and not attend our Service **under any circumstance until they receive a negative test result.**

### Implement effective hygiene measures

The national campaign *Help Stop The Spread and Stay Healthy*, launched by the Australian Government has emphasised that effective handwashing is a vital strategy to help reduce the spread of the COVID-19 virus. Handwashing with soap and water for at least 20 seconds whenever you cough, sneeze or blow your nose, prepare food or eat, touch your face or use the toilet is recommended.

Our Service will adhere to National Regulation requirements and Government guidelines to ensure all educators, children, families and visitors to the Service implement best practice.

Department of Health units in states/territories may introduce various measures to help slow the spread of coronavirus during the pandemic.

Our Service will ensure:

- all employees, parents, children and visitors must wash their hands with soap and water or use the alcohol-based hand sanitiser provided upon arrival to the Service
- a workplace attendance register is maintained for all staff, parents, visitors at all times (including contact phone numbers) as per National Regulations

- hands must be thoroughly dried using disposal paper and disposed of in the bin provided
- disposable tissues must be used to wipe noses, eyes or mouths and disposed of in the bin provided immediately after use
- hands must be washed following the use of tissues
- hands must be washed thoroughly using soap and water before and after using the toilet
- cough and sneeze etiquette must be used- cover your cough and sneeze with your hand or elbow
- educators and staff must adhere to our *Handwashing Policy* at all times
- children are supervised when washing hands
- educators and staff must adhere to effective food preparation and food handling procedures
- educators will wash their hands or use alcohol-based sanitiser, before wearing gloves and wash their hands after wearing gloves
- educators and staff must adhere to our *Health and Safety Policy* for cleaning and disinfecting surfaces and equipment (such as toys, puzzles, outdoor toys, bedding, playdough etc) as per *Staying healthy: Preventing infectious diseases in early childhood education and care services* recommendations
- staff will maintain a cleaning register of all surfaces and equipment conducted
- equipment, resources and surfaces including high-touch surfaces- taps, door handles, light switches, nappy change areas, toys, keyboards and laptops/iPads will be cleaned more frequently as required using detergent and water followed by disinfectant
- cleaning contractors hygienically clean the Service to ensure risk of contamination is removed as per [Environmental Cleaning and Disinfection Principles for COVID-19](#)
- washroom facilities for employees have adequate supplies of soap, toilet paper and alcohol-based sanitiser

### Social/Physical distancing in childcare

Social or physical distancing is important because COVID-19 is most likely spread from person-to-person through close contact with a person while they are infectious, close contact with a person with a confirmed infection who coughs or sneezes or from touching objects or surfaces (such as door handles or tables) contaminated from a cough or sneeze from a person with a confirmed infection and then touching your nose or mouth. (Source: Australian Government Department of Health. Coronavirus disease)

Social or physical distancing in early childhood education and care is not feasible for educators to perform their job, however we will implement measures to minimise the risk of exposure as *reasonably practicable*.

Early Childhood Education and Care services are not subject to restrictions on how many people (adults or children) can be on the premises at one time. Our Service will encourage educators to apply physical distancing measures where possible and not gather in groups or encourage groups of parents to congregate. (SafeWork NSW, AHPPC)

**To reduce the spread of COVID-19 parents are reminded of the following:**

- if your child is sick, do not send them to our Service
- **do not visit our Service if you or another family member is unwell**
- sanitise your hands at regular intervals throughout the day
- avoid physical contact with other people who may be sick- such as older people and people with existing health conditions
- clean and disinfect high touch surfaces regularly (door handles, car seats, mobile phone, toys, dummies)
- promote strictest hygiene measures when preparing food at home and at the Service

**To minimise the risk of exposure to COVID-19 our Service will:**

- undertake a risk assessment to identify potential risks and mitigate with consideration risks to children and staff
- revisit the risk assessment whenever new risks or potential risks are identified and adjust our management plan
- restrict the number of visitors to our Service (including students, delivery of goods)
  - display QR code posters in various locations to avoid congregations of parents at peak times of the day
  - ensure face masks are worn by all adults (staff and visitors) at all times in indoor settings (subject to exemptions)
  - ensure face masks are worn by staff when engaging with other adults, such as during pick up and drop offs
  - require all staff to wear face coverings when not working directly with children in areas of the service
- restrict the number of educators using the staff room at any one time
- reduce mixing of children by separating cohorts (including staggering meals and play times)
- where possible, outdoor play will be promoted within our Service to provide children with additional personal space
- large groups will be monitored to provide flexible learning to ensure groups are smaller in both the indoor and outdoor environment

- mixing of staff and children between rooms should be avoided where possible
- office staff should, where reasonable practical use separate areas or separate themselves as much as possible from one another
- staff should serve children food and avoid children to self-serve from a shared plate
- avoid any situation when children are required to queue- waiting their turn to use bathroom for handwashing or toileting, waiting their turn to use a piece of equipment etc.
- contact parents of children who have chronic medical conditions or immunosuppression as they may be at an increased risk of disease and require additional support/care
- conduct COVID-safe risk assessments for any group outings to public places (excursions to local shops, schools, libraries)
- conduct COVID-safe risk assessments for any large group celebrations and abide restrictions for groups size, square metre allowance and other measures
- communicate with parents and families the risk mitigation strategies to be adhered to during any group celebrations

### Suspected cases of COVID-19 at our Service

As per our *Sick Child Policy* we reserve the right to refuse a child into care if they:

- have a contagious illness or infectious disease
- have been in close contact with someone who has a positive confirmed case of COVID-19
- are unwell and unable to participate in normal activities or require additional attention
- have had a temperature/fever, or vomiting in the last 24 hours
- have had diarrhoea in the last 48 hours
- have been given medication for a temperature prior to arriving at the Service
- have started a course of anti-biotics in the last 24 hours

If a child becomes ill whilst at the Service, educators/staff will respond to their individual symptoms of illness and provide comfort and care. The child will be cared for in an area that is separated from other children in the service to await pick up from their parent/carer.

Educators will take the child's temperature. If the temperature is above **37.5°C** parents will be contacted and required to collect their child within 30 minutes. If they are unable to collect their child, an emergency contact person/authorised nominee will be contacted, and they must collect your child within 30 minutes.

Educators will attempt to lower the child's temperature by:

- removing excessive clothing (shoes, socks, jumpers)
- encourage the child to take small sips of water

- move the child to a quiet area where they can rest whilst being supervised

Educators will wear disposable gloves **and a face mask** to avoid possible contamination. All items/resources touched by the child will be cleaned and disinfected to avoid possible cross contamination.

Educators will keep accurate records of the child's temperature, time taken, time parent/s were contacted, staff member's name and time of collection.

All information will be recorded in our *Incident, Injury, Trauma and Illness Record*. Parents will be required to sign this record upon collection of their child.

Parents are reminded to ensure their contact details are current and emergency contact details are updated if required.

Our Service also reserves the right to prevent employees, parents, family members or visitors to enter our premises if the Approved Provider or Nominated Supervisor suspects instances of COVID-19 due to symptoms being displayed.

### Notification

The Approved Provider or Nominated Supervisor is mandated by law to notify the Public Health Unit on **1800 020 080** of any confirmed case of COVID-19. In addition, the Approved Provider must also notify the [Regulatory Authority](#) in their state or territory within 24 hours. At all times, privacy laws must be adhered to and information about individuals must not be shared without permission.

### Talking to children about COVID-19

As per our *Interactions with Children, Families and Staff Policy*, our Service is committed to maintaining positive interactions and relationships with children and their families. Information provided to children about COVID-19 will be age appropriate and sensitive to their emotional wellbeing. Educators will both acknowledge children's concerns and be open to discussions about COVID-19. Educators will inform children about the virus and emphasise preventative measures such as handwashing, use of tissues, cough and sneeze techniques and limiting touching other children's faces.

Posters to demonstrate correct handwashing methods will be referred to and educators will model techniques.

Children's emotional well-being will be closely monitored by all educators and staff and any concerns communicated with parents and families. Children's questions will be respected and supported.

Staff will be supported in professional learning to help children deal with trauma related to COVID-19 through resources, webinars and online modules. (Emerging Minds, beYou)

In the event of the Service being closed as a precaution to limit the spread of the virus, information will be provided to parents/families to help explain the situation to young children.

### Payment of Fees - Child Care Subsidy- (CCS)

As per our *Payment of Fees Policy*, fees are payable **in advance** of your child's attendance.

CCS hourly rate caps will be adjusted from 12 July 2021 [see: [Child Care Subsidy rates](#)]

Children must continue to meet immunisation requirements.

### Waiving of gap fees

The gap fee is the difference between the Child Care Subsidy (CCS) the Government pays to a service and the remaining fee paid by the family. Services can waive the gap fee and receive Child Care Subsidy (CCS) if a child is unable to attend care because:

- they, or a member of their immediate household, must isolate due to COVID-19. This applies from 9 November 2021
- the service, or a room at the service, is closed on advice from the state or territory government due to COVID-19. This includes where:
  - a Family Day Care or In-Home Care educator isn't able to provide their usual service because they, or a member of their immediate household is quarantining or isolating
- the state or territory has restricted access to childcare in a region due to COVID-19.

Gap fees may be waived until 30 June 2022. Services must keep a record of the advice by a state or territory authority advising that they close and accurately reflect waived gap fees in the fee statements provided to parents.

### Child Care Safety Net – Additional Child Care Subsidy (Temporary Financial Hardship)

The Child Care Safety Net gives families and services extra support if they are vulnerable or disadvantaged or located in a regional or remote community. Families may be eligible for [Additional Child Care Subsidy](#) (ACCS) due to temporary financial hardship, such as loss of income and be entitled to access up to 100 hours of subsidised childcare per fortnight for up to 12 weeks. Families will need to apply for ACCS (Temporary Financial hardship) and update their activity levels through [myGov](#).

### Children considered at risk

Where a child is enrolled and is considered 'at risk' of serious abuse or neglect, our Service will refer the child or family to the appropriate support agency in order to comply with the legislative requirements.

### Allowable Absences from childcare

Allowable absences have been reset for the 2021/22 financial year to 42 days. All Australian families can access 10 extra allowable absence days per child in this current financial year (i.e., 52 days).

This is in addition to the 10 extra allowable absences provided for families in NSW, Victoria and the ACT during extended lockdowns in 2021. These extra absences are to help services and families affected by COVID-19 but can be used for any reason. They will be applied automatically.

If a state or territory restricts access to childcare in a region for more than 7 days, more absences will be provided. [see: [Absences](#) updated 12 November 2021]

### What happens if our Service is forced to close?

The decision to close our Service will be made, and advised, by relevant state and territory governments PHU or the Regulatory Authority. This may be due to a confirmed case of COVID-19 in our Service community. Should this occur, all families will be notified immediately via email and/or phone.

The Approved Provider must notify the [Regulatory Authority](#) within 24 hours of any closure via the [NQA IT System](#) the Regulatory Authority for Work Health and Safety in their state/territory (Safe Work Australia) **and** the Department of Education, Skills and Employment (DESE) in their state or territory. In addition, Services that need to temporarily close for COVID-19 related reasons must now also report closures (and re-openings) via your third party software or the [Provider Entry Point \(PEP\)](#).

New South Wales and Australian Capital Territory: [NSWACT@dese.gov.au](mailto:NSWACT@dese.gov.au)

Queensland: [CCSAssessments-QLD@dese.gov.au](mailto:CCSAssessments-QLD@dese.gov.au)

Western Australia: [CCSAssessments-WA@dese.gov.au](mailto:CCSAssessments-WA@dese.gov.au)

South Australia: [ChildcareSA@dese.gov.au](mailto:ChildcareSA@dese.gov.au)

Tasmania: [ChildcareTasmania@dese.gov.au](mailto:ChildcareTasmania@dese.gov.au)

Northern Territory: [ChildcareNT@dese.gov.au](mailto:ChildcareNT@dese.gov.au)

Our Service will ensure all areas are cleaned and disinfected as per Safe Work cleaning guidance. We will continue to keep families informed as to when we are expected to re-open as advised by the Public Health Unit.

## Staff entitlements if sick or suspected to have COVID-19

Under workplace health and safety laws, our Service must ensure the health and safety of all employees.

### Confirmed COVID-19

If an educator or staff member is confirmed to have COVID-19, they are unable to attend the workplace and cannot return to work until they have completed a period of self-isolation. Employees must make a declaration that they are *fit for work* and have no symptoms of COVID-19 for the past 72 hours (3 days). A doctor's certificate or clearance is not required.

Full and part-time employees who cannot attend work due to illness can take paid sick leave. Employees who have no leave entitlements remaining may be eligible to apply for Pandemic Leave Disaster Payment.

As per our privacy obligations under the *Privacy Act*, the identity of a person with a confirmed case of COVID-19 will only be shared with Public Health and/or on a strictly 'need to know' basis. Access to personal or medical information can only be shared with the consent of the employee.

### Caring for a family member or emergency

If an employee cannot attend work due to caring for a family member due to COVID-19, they are entitled to take paid carer's leave. Casual employees are eligible to have 2 days unpaid carer's leave per occasion. See [Fair Work Act](#) for entitlements for casual, part time and full-time employees. Reasonable evidence is required to justify the absence.

### Self-isolation due to travel or returning from interstate where borders are closed

State and territory governments manage quarantine for overseas arrivals. Returning travellers from overseas may be mandated to isolate in a designated facility. Exemptions may apply due to vaccination status. The employee **is not entitled** to be paid during quarantine (unless they use paid leave entitlements- annual leave.) Employees are not entitled to use personal sick leave as they are not 'sick'. Employers may choose to adopt an option to satisfy both parties. (See: [Australian Business Lawyers and Advisors](#) for further information)

Similarly, any person required to self-isolate due to travel restrictions within Australia are not entitled to be paid. Employees may be eligible to access up to 2 weeks of [Pandemic Leave Disaster Payment](#).

### Self-Isolation Unpaid Pandemic Leave

Effective 8 April 2020, employees who are required to self-isolate by government or medical authorities or acting on advice of a medical practitioner may access unpaid [pandemic leave](#). (Extended until 31 December 2021). The agreement has to be in writing and the employer needs to keep it as a record.

This leave provides employees with:

- 2 weeks of unpaid pandemic leave
- the ability to take twice as much annual leave at half their normal pay if their employer agrees.

### Waivers

In the event of staff members requiring to self-isolate due to possible infection of COVID-19, the Approved Provider will apply to the Regulatory Authority for waivers for qualifications and/or ratios to minimise disruptions to our provision of care. (Payment for waivers must be paid, however will be reimbursed by the regulatory authority) see: [NGA ITS Portal Emergency Management Help Guide](#)

### Communicating with families

Our Service will establish continue regular communication channels with families and share information about COVID-19 as required.

Due to the fluid nature of COVID-19 and the necessity of self-isolation for some staff members, our Service will endeavour to inform parents and families of any staff changes on a daily basis.

Staff who have approved leave will be replaced with casual staff and families will be informed as per our usual practices to ensure continuity of care where possible.

As restrictions continue to be lifted across all states and territories, our risk mitigation measures may also be eased. Any changes to our current organisational plans will be communicated clearly with families.

### Caring for our community

We understand that the outbreak of COVID-19 and the constant amount of information received through the media may be very stressful to young children and parents. The anxiety about this virus may be overwhelming and cause fear and anxiety to some people, especially children.

Our Service is committed to continue to provide quality education and care to all children and support families responsibly during this unprecedented challenge with the COVID-19 outbreak.

Knowing how to look after yourself, and others is very important during this crisis.

We will promote a safe and supportive environment by:

- reassuring children they are safe

- acknowledging and listening to children’s questions
- promoting and implementing hygiene routines for handwashing and cough and sneezing
- keeping regular and familiar routines within our Service
- ensuring children eat well throughout the day
- engaging children in play, games and other physical activities
- being alert to children’s level of anxiety and provide quiet and relaxing activities
- ensuring children are provided with rest and sleep when needed
- providing information to families and support services as required
